

F-Secure Client Security

Version 11

Uncompromised online security without sacrificing performance

Client Security comes in two versions: Standard and Premium. Premium version includes Software Updater for additional security layers.

What's new:

1. Software Updater scans the computer for missing software updates and allows you to automatically install software updates.
2. DeepGuard 5 offers proactive behavior based protection against emerging zero-day threats for latest platforms

Key features:

- Supports all the latest Platforms, including Windows 8
- Enhanced proactive protection against emerging threats through the New DeepGuard 5
- Improved Browsing Protection for augmented security against malicious sites
- Uncompromised security with a minimal performance impact
- Easy set up and maintenance
- E-mail and Web traffic scanning
- Cutting-edge Firewall with intrusion prevention
- Central management without end-user intervention

Supported platforms:

- Microsoft Windows XP with SP3 (32-bit editions only)
- Microsoft Windows Vista with SP2 or newer (all 32-bit and 64-bit editions)
- Microsoft Windows 7 with SP1 or newer (all 32-bit and 64-bit editions)
- Microsoft Windows 8 (all 32-bit and 64-bit editions)

Supported languages:

English, Čeština, Dansk, Deutsch, Eesti, Espanol, Español (América Latina), Français, Français (Canada), Italiano, Magyar, Nederlands, Norsk, Polski, Portugues, Portugues (Brasil), Român, Slovenščina, Suomi, Svenska, Türkçe, 中国 (P.R.C, Taiwan, Hong Kong), Русский, Ελληνικά, 日本語, 한국어(대한민국)

Compatibility:

- Client Security 11 works only with Policy Manager 11 and above to be able to handle the Software Updater feature.

Related products:

- AV for Workstation - does not include the web specific protection like Browsing protection and Web Traffic Scanning.
AV for Workstation does not include Software Updater.
